關貿網路股份有限公司
Trade-Van Information Services Co.

國際組織會員
A member of

關貿網路自財政部貨物通關自動化臨時專案小組，歷經民營化、股票上市等重要里程碑，不斷研發各種跨領域網路加值服務，參與建置國家級網路服務平台，逐漸拓展物流、運籌、供應鏈、電子商務及大數據等各領域服務。

為降低兩岸跨境貿易門檻，我們利用通關加值及電子商務領域豐富經驗成立「Qtrade 台灣集品網」，整合兩岸貿易商流、物流、金流，提供一條龍的電子商務服務。

我們重視員工健康與工作環境品質，在打造關貿網路成溫馨大家庭的同時，我們不忘鼓勵同仁參加各類志工服務，回饋社會。對經營管理的高度重視，也讓我們獲台灣證券交易所上市櫃公司資訊揭露評鑑 A++ 最優等級。

以成為亞太地區雲端加值服務領導公司為目標，展望未來，我們將持續為客戶、員工、股東及合作夥伴創造價值，實現「有台商的地方，就有關貿的服務」。

The predecessor of Trade-Van was the "Cargo Clearance Automation Planning and Promotion Task Force" under the auspices of the Ministry of Finance, ROC. Having been privatized Trade-Van continues growing to be a listed company and evolves as a national-class networking services provider. Through the years, we have expanded business into fields of logistics, supply chain, electronic commerce, big data analysis and etc. services.

With the experiences of building value-added services and e-commerce services, we developed Qtrade system which incorporates trading, goods delivery, and payment features aiming to provide an integrated, streamlined e-commerce service for facilitating the cross-strait trade.

Trade-Van cultivates a family atmosphere in working environment and also encourages employees to participate in voluntarily public activities contributing to the society. In 2014 our company was awarded an A++ prize by TSWE* for the corporate governance performance.

Upon our vision to be the leading cloud-based company in Asia Pacific region, we vow to continue creating values through integrated services for our clients, partners and employees. We will bring them to the region and bring the region to them.
